

Brandon Jones

AAV Senior Thesis

Islands: Moss, potassium nitrate (crystals), dirt, sand, cotton, wood, steel; Lake: L2'xW1'xH1', Mountain L2'3" xW6" xH1'9"
Mushroom Cap L1'8" xW1' xH4"

Artist statement

Brandon Jones is utilizing the crystal growing potential of potassium nitrate to form structures on various materials creating environments covered in colorful crystal growth. These environments stem off of a history of fantasy relating to the seemingly impossibilities of fantasy landscapes and creating similar such impossibilities in the real world.
