

The Cause of Air Pollution in Kanpur, India

Manasi Palle

Department of Sociology and Anthropology, The College of New Jersey

Department of Public Health

INTRODUCTION:

Students of SOC 345 were assigned a semester long case study to observe and research how humans interact with their environment. I chose to learn more about the most polluted city in the world, Kanpur India.

Methods:

Use concepts from various textbooks including

- Twenty lessons in environmental sociology (2020)
- Sites Unseen: Uncovering Hidden Hazards in American Cities

Conclusion:

The reason the pollution in this area is because of lack government regulation and capitalism.

To help this situation:

- People can avoid fast fashion
- Support and donate to grass-root organizations based in Kanpur, India
