

BUILDING FROM THE GROUND UP: INTERNSHIP PROGRAM WITH NIA

BY: LAUREN WASSERMAN

This project provides structure for an Internship Program for students in the Bonner Community Scholars Program with Neighborhood Improvement Association (NIA). NIA plays a significant role in educating TCNJ CEL students through their Illegal Dumping Campaign in the city of Trenton. This project will further the partnership between Bonner and NIA by creating new leadership roles within the non-profit organization. Upperclassmen will have the opportunity to apply for internships, incorporating preexisting knowledge and skills with new experiences, responsibilities, and leadership roles.
